ANNUAL REVIEW

COACHES ACROSS CONTINENTS

INFLUENCE. INNOVATE. IMPACT. INSTRUCT.

A MESSAGE FROM OUR FOUNDER:

COVID-19 PANDEMIC

As we began our Annual Review in January, our staff was extremely proud of the impact and scale of our work educating on the United Nations Sustainable Development Goals in 70 countries.

And then on January 30th, the WHO declared a new virus to be a Public Health Emergency of International Concern, and the world changed. On February 11th, the virus was named COVID-19.

I am so proud of how Coaches Across Continents and our collaboration of programs and educators responded. We designed, developed, and implemented an educational resource and distributed it to our programs in early March 2020. Our in-country teams became leaders in their communities and took action to educate children about the virus and provide immediate community aid.

In May 2020, we began work on a longer term project to address the rising social problems associated with the virus, including mental health, increased violence against children and women, alcohol and drug abuse, and the financial costs of the pandemic. This is the biggest global emergency that we will see in our lifetimes.

If you would like to support Coaches Across Continents, please email me or our teams directly and we can discuss our projects and plans. It is a difficult time for everyone in the world. We all need to join together so that we do not go 'back to normal' in 2021 but rather, we move towards a 'new normal.'

Please stay safe and let's all become #PartoftheSolution.
